

AMALA JOSE

Frontend Technical Lead

React • Next.js • TypeScript • Angular

Bangalore, India | +91 8123045788 | amalarosejose@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Frontend Technical Lead with 14 years of experience architecting and delivering enterprise SaaS applications using React, Next.js, and TypeScript. Combines hands-on technical leadership, frontend architecture, design systems, and engineering standards across 7 enterprise healthcare platforms — with people leadership, mentoring teams of up to 8 engineers. Comfortable operating as both a technical lead driving delivery and an architect owning system-wide frontend decisions, component strategy, and cross-team standards. Focused on performance, accessibility, and scalable, maintainable frontend systems.

CORE SKILLS

Frontend Technologies: React 18 • Next.js (App Router, SSR) • TypeScript • JavaScript (ES6+) • Angular • HTML5 • CSS3 • SCSS • Tailwind CSS • Bootstrap • Storybook • Nx • Redux Toolkit • React Query • Context API • React Router • REST APIs • WebSocket • SignalR • Node.js & NestJS (working knowledge)

Architecture & Leadership: Frontend Architecture • Design Systems • Component Library Strategy • Frontend Modernization • Technical Leadership • Mentoring & Team Growth • Architecture Discussions & Design Reviews • Product Ownership • Stakeholder Management • Sprint Planning • Agile/Scrum

Performance & Quality: Core Web Vitals • Lighthouse • Lazy Loading & Code Splitting • Bundle Optimization • Accessibility (WCAG) • Jest • React Testing Library • Cross-browser & Component Testing • Production Debugging • CI/CD • Git • Azure DevOps • Jira

AI-Assisted Development: Cursor • Claude • Prompt Engineering • AI-assisted Code Generation • Developer Productivity Tooling

PROFESSIONAL EXPERIENCE

Technical Lead

March 2021 – Present

Emids Technologies Pvt Ltd | Bangalore, India

Project: Onlife Health — LiveOn, CoachOn, eHub, ConfigSuite, UI Modernization

Tech Stack: React.js, Next.js, Angular 18, TypeScript, Tailwind CSS, Bootstrap, NestJS, Azure, Git, .NET Integration, AI-assisted development

- Owned frontend architecture for 5+ enterprise healthcare SaaS applications, delivering 50+ production React and Next.js features from design through production deployment while maintaining accessibility and performance standards.
- Partnered with Product, UX, Backend, and QA to translate business requirements into scalable frontend solutions across multiple enterprise healthcare platforms.
- Improved frontend performance through code splitting, lazy loading, memoization, and bundle optimization — reducing page load time by 20%.
- Established reusable error-handling patterns and frontend engineering standards, reducing production issues by 90% and improving application reliability.
- Led architecture discussions and design reviews, reviewed pull requests, and set technical direction across multiple product teams.
- Designed scalable React applications using TypeScript, Redux Toolkit, Context API, custom hooks, and asynchronous data flows supporting complex enterprise workflows.
- Built and owned a reusable component library and design system adopted across multiple enterprise applications, cutting duplicate UI development effort by 60% and improving UI consistency.
- Mentored 8 frontend engineers through code reviews, architecture discussions, and pair programming, improving code quality and engineering consistency.
- Leveraged Cursor and Claude to accelerate development, automate repetitive tasks, and improve engineering productivity.
- Streamlined frontend CI/CD workflows with DevOps, reducing release friction and improving deployment quality.

Lead Analyst

November 2019 – March 2021

Emids Technologies Pvt Ltd | Bangalore, India — Project: Plan Compare Revamp (Connecture, Medicare beneficiaries portal)

Tech Stack: Angular, RxJS, NgRx, Bootstrap, TypeScript

- Led frontend development of Plan Compare, a public-facing portal for Medicare beneficiaries to browse and compare insurance plans without login.

- Architected state management using NgRx and RxJS, improving data flow predictability and reducing UI bugs across complex comparison flows.
- Owned code reviews and guided team members on Angular best practices, reusable component design, and performance tuning.

Associate Lead Analyst

March 2018 – November 2019

Emids Technologies Pvt Ltd | Bangalore, India — Project: United Health Group, Polaris Market

Tech Stack: DustJS, Backbone.js, JavaScript, HTML5, CSS3

- Delivered frontend enhancements for the Polaris Market platform and mentored developers on modular JavaScript and reusable UI design, contributing to smoother UAT cycles.

Senior UX Analyst

November 2016 – March 2018

Emids Technologies Pvt Ltd | Bangalore, India — Project: Drug Compare (Connecture)

Tech Stack: Razor, .NET Integration, JavaScript, jQuery, Bootstrap, CSS3

- Delivered responsive UIs from UX wireframes and modernized the application's UI using Connecture's internal design framework, increasing component reuse.

Senior Software Engineer

2015 – September 2016

iGate Global Solutions (Capgemini) | Bangalore, India — Project: CRM, FreshDirect (Online Grocery Platform, New York)

Tech Stack: AngularJS, Bootstrap, CSS3, JavaScript, HTML5

- Developed key CRM modules (Case Creation, Orders, Promotions) and built reusable AngularJS components that reduced duplicate code across the platform.

Software Engineer

2012 – 2015

Sakha Global Technologies Pvt Ltd | Bangalore, India — Projects: MegaCore (Brandissimo), Zinnov, Confluence, ACR, GHS

Tech Stack: HTML, CSS, JavaScript, jQuery, TPL Templating

- Built interactive game interfaces and reusable UI templates, and delivered responsive websites for multiple enterprise clients with cross-browser compatibility.

EDUCATION

Master of Science, Computer Science — IGNOU, Bangalore, India (2016)

Bachelor of Science, Computer Science — Providence Women's College, Kerala, India (2012)

CERTIFICATIONS

- Next.js and React — The Complete Guide
- The Complete Angular Course — Beginner to Advanced (Udemy)
- AI-Assisted Software Development (Prompt Engineering, Cursor, Claude, RAG Fundamentals)

AWARDS & RECOGNITION

- Innovation and Execution Excellence — CEO Award (2019)
- Star Award for Technical Excellence (2018)
- Cause for Applause Award (2016, 2017)
